

GENERAL INFORMATION

INTRODUCTION . . .

This Master Parts Catalog F-74080 contains replacement parts information for the model years 1974 thru 1980.

Before ordering replacement parts, you must first identify the vehicle by its model year and series. Information to assist you is located on later pages.

For your convenience, this parts catalog has been issued in two sections. Section one consists of text copy, specific illustrations listing part numbers, Body Miscellaneous, and PAKS. Section two, the Illustration Supplement, consists of general illustrations and is under a separate cover. It has been assigned form number F-75080.

The two sections have been further subdivided into subsections called groups. These groups list replacement parts for particular areas of the car. An explanation of the make-up of these catalog groups follow.

Main units of the car are identified by the number preceding the decimal in any group number. Listed below are all the group numbers and group names as shown in the catalog.

NAME	GROUP	NAME	GROUP
Accessories	15	Glass	25
Air Conditioning	13	Grille	2
Automatic Transmission	16	Hardware	23
Axle	9	Heater	13
Body Hardware	27	Hood	12
Body Miscellaneous	30	Hydramatic Transmission	6
Body Mouldings	26	Instrument Panel	22
Body Sheet Metal	20	Instruments	3
Brakes	8	Manual Transmission	6
Bumpers	12	Metal Enclosures	28
Channels	25	Pick-Up Box	31
Chassis Miscellaneous	14	Power Steering	10
Clutch	5	Propeller Shafts	9
Cooling	2	Rear Suspension	11
Cowl Vent	22	Road Springs	11
Doors	23	Seats	29
Electrical	3	Shifting	7
Emission	4	Shocks	11
Engine	1	Soft Trim	29
Exhaust	4	Special Equipment	40
Fenders	12	Steering Gear	10
Folding Tops	28	Threespeed Transmission	6
Fourspeed Transmission	6	Transfer Case	18
Frames	11	Transmission	6, 16
Front Suspension	10	Wheels	8
Fuel	4	Windshield Wiper	22

Individual parts are assigned a group number. The first number identifies the main unit. Following the decimal is the subgroup number under which all parts of the same name and function are listed. *Example: Group 1.059 HEAD, Cylinder . . . '1.'* indicates that it is an engine part, '.059' is the subgroup number where part numbers of cylinder heads can be located.

GENERAL INFORMATION

The suffix, *example*: '-10', should not be interpreted as being part of the group number. It merely serves as a reference number to tie in the Alphabetical Index and the Illustrations Supplement callouts with the text section group numbers.

Due to their nature and use, many parts may appear in more than one group in this catalog. Each of these parts is assigned an identifying primary group number. This is the number under which the part is priced in the American Motors Parts and Distribution Services Division Jeep Price List, listed on Parts Storage Location Labels, and stored in American Motors Parts and Distribution Services Division Warehouses and Dealerships. Parts should always be ordered by their identifying primary group number, part number, and noun name.

LOCATING PART NUMBERS . . .

GROUP 26 -

The driver's side on Left Hand Drive is the left hand side of the vehicle; on Right Hand Drive it is the right hand side of the vehicle. This is the governing factor in determining whether a part is left or right hand.

Body Mouldings Production Installed . . . Refer to the Special Information and Illustrations Index at the start of Group 26. Select the illustration title which would most logically include the part you require. Turn to the page indicated by the index and visually locate the part in question. The part number you seek will be found adjacent to the part.

Body Mouldings Special Dealer Treatment . . . Ornamentation changes by dealers, to satisfy individual owner requests have not been cataloged. The dealer assumes the responsibility for correctness of replacement parts.

BALANCE OF GROUPS -

First locate the group number of the part required. Any one of the following three methods can be used.

Method 1: Refer to the Illustrations Index located at the start of the Illustration Supplement F-75080. Select the illustration title which would most logically include the part you require. Turn to the page indicated by the index and visually locate the part in question. The group number you seek will be found adjacent to the part. Locate that group number in the text section.

Method 2: If the 'Noun' name of the part you seek is known, refer to the Alphabetical Index located in the front of the text section. The group number you seek will be found adjacent to the parts noun name. Locate that group number in the text section.

Method 3: If the group number of the part you seek is already known, locate that group number in the text section.

Next, interpret the information under the group number as follows:

YEAR -

This column will indicate the year(s) to which a part applies. When a slash (/) is shown following a year it indicates the model year the part was first used, and that it is in use through the current year. For example:

75 Indicates the part was used for 75 model year only.

75/76 Indicates the part was used for 75 and 76 model years.

74/ Indicates the part was used for 74 thru 80 model years.

GENERAL INFORMATION

On occasion, instead of the above information, the year column will carry the trim number applicable to the part. (For the location of the plate bearing the vehicle's applicable trim number, refer to the Vehicle Identification section following.)

MODEL -

This column carries pertinent information relative to the specific *model, series, option, size, type, etc.* applicable to the part listed. Abbreviations used can be clarified by referring to the Abbreviations and Codes Index. The absence of a listing in this column indicates the part is applicable to every car so equipped, built for the model year shown in the 'Year' column. Of special importance are those listings which include an asterisk, *i.e.* (* 11-1). This is meant to refer the reader to the notes appearing on the first page of that respective group. These notes usually pertain to a running change which may have occurred in the parts used to manufacture a given model. This first or 'Special Information' page of each group carries special, pertinent information relative to selecting correct parts from those listed within the group.

PAKS -

If the part in question happens to be a *Package, Assembly, Kit, or Set*, you will in many instances find an illustration reference number in this column. Locate that typical illustration in the PAKS section found near the rear of the catalog, and you can visually interpret the content of the part number.

PRIMARY GROUP NUMBER -

If a part has a primary group number which is different from the one shown in the heading of that group, its correct primary group number will be shown in this column. This is done as a service to those dealers who bin their parts by the primary group number.

PER CAR -

This column will list the number of pieces of a part required for the specific application listed, not the total number of this part which may be used on the entire car.

PART NUMBER -

The number listed in this column is the number by which the part you require must be ordered. Since certain automotive parts are readily available locally, American Motors does not offer them for service replacement. The presence of a NA adjacent to the part number indicates that it is not available from American Motors.

ABBREVIATIONS INDEX . . .

The Abbreviations Index is located after the Alphabetical Index. Definitions to descriptive information abbreviated in the catalog are defined in the index. For example:

WPS With Power Steering

ACCESSORIES . . .

Many parts which were previously listed under the Jeep general heading 'Special Equipment and Accessories - Group 35' have now been cataloged with parts more closely related to their function. For example: Exhaust Emission is now located in Group 1.000 Engine, and Group 4.000 Fuel - Exhaust. Heater - Defroster is located in Group 13.000 Heater - Air Conditioning. Conventional accessories such as Radios, Antennas, Outside Rear View Mirrors, etc. will be listed in separate Accessories Catalog and Price List.

GENERAL INFORMATION

ALPHABETICAL INDEX . . .

Alphabetical listings followed by a double digit group number indicate that the part may be located in the illustrated text section of the group indicated. For example:

MOULDING, Rear Window Finish 26

Alphabetical listings followed by a group number indicate that the part may be located in the text copy section of the group indicated. For example:

PUMP ASSEMBLY, Water 2.080-1

ATTACHING PARTS . . .

Attaching Parts are not listed in the Alphabetical Index. However, the purpose for which the parts are required is shown near the group listing under the item with which they are used or attached. For primary group number reference, refer to *PRIMARY GROUP NUMBER* information.

ILLUSTRATION SUPPLEMENT . . .

ILLUSTRATIONS INDEX -

This index is located at the front of the Illustration Supplement. It has been subdivided into subsections called groups and alphabetized within each group. To use this index, select the illustration title which would most logically describe the part you require. Turn to the page indicated by index and visually locate the part in question.

ILLUSTRATIONS -

The group number will be found adjacent to the part. Locate this group number in the text section of the catalog. If a PO precedes the group number on an illustration, it indicates that the part as illustrated is available *ONLY* as part of an assembly.

MR - MODIFICATION OF PARTS . . .

At various times one service part number is supplied which when modified by the dealer by cutting, drilling, bending, etc. serves as a replacement for similar parts. Parts supplied in this manner are identified by the letters MR in the code column or in the group heading.

NA - PARTS NOT AVAILABLE FOR SERVICE . . .

Part numbers are listed in this catalog even though they are not available for service. These part numbers are listed for reference only and are identified by the letters NA in the code column.

NC - PART SUPPLIED IN NEUTRAL COLOR . . .

At various times one service part number is supplied in a neutral color, which when painted to match by the dealer, serves as a replacement for similar parts. Parts supplied in this manner are identified by the letters NC in the code column or in the group heading.

PARTS NOT LISTED IN THIS CATALOG . . .

Parts not listed in this catalog for the specific vehicles that this catalog is issued for, are to be considered as not supplied for service by the Parts and Distribution Services Division.

GENERAL INFORMATION

PRICES . . .

Suggested prices for all parts listed in this catalog can be found in separate Jeep Parts Price List W-1164.

PRIME PAINTING . . .

Service replacement sheet metal parts are always serviced in prime and certain other categories of parts are serviced in one color only. They are not available from American Motors in finished colors, therefore, the dealer must repaint to color desired.

SUBSTITUTED PARTS . . .

If a part has been substituted, the Price List will indicate the replacing part numbers; or replacement parts, if available, will be supplied when the original part number is ordered even though the Price List does not indicate the change. If the substitution information was available for inclusion in the parts catalog at time of publication, this substitution information will then be listed adjacent to the original part number. However, if it is more practical for an individual to obtain particulars from the Price List, the words (Ref. Pr. List) have been printed in place of substituting part numbers.

TRIM NUMBER . . .

Trim items are available by part number. By choosing the applicable description, color, or trim number and reading across to the specific model column you will obtain the part number of the required item. Trim numbers having an additional letter suffix such as B, C, D, etc., are used only when the part is peculiar to a particular trim number.

Trim numbers listed without a letter suffix indicate the part applies to all models having a part number entered in its specific model column.

Cloth and vinyl materials used in fabricating trim assemblies, not part of a dielectric insert, are available in bulk form. When ordering, please specify the exact size desired since these materials sold only by the running yard vary in widths of approximately 54 inches to 64 inches.

SPECIAL BUILT VEHICLES . . .

SPECIAL SALES ORDER NO. -

Vehicle equipment deviations by dealers, to satisfy individual owner requests, have not been cataloged. However, to assist in ordering replacement parts, for vehicles built by production with other than Standard Equipment, an identification plate is attached to the dash panel underneath the hood. On the majority of vehicles requiring this plate, only a minority of parts are peculiar. Usually, a dealer will recognize which parts are nonstandard on a particular series and model.

GENERAL INFORMATION

When ordering nonstandard replacement parts for a vehicle having the aforementioned identification plate (See Illustration), please **FURNISH THE FULL AND COMPLETE SPECIAL SALES ORDER NO. AS WELL AS THE VEHICLE SERIAL NUMBER** and **ENGINE BUILD CODE NUMBER**, and a description of the parts required to the **NATIONAL PARTS DISTRIBUTION CENTER ON FORM NO. F-259 MR3**.

THIS VEHICLE MANUFACTURED BY
Jeep CORPORATION

Special Sales Order No.

OR

JEEP CORPORATION
TOLEDO, OHIO USA

Sales Order No.	SSR & O No.
* Paint Option No.	Trim Option No.
Vehicle Identification (VIN) Number	Jeep Model No.

*Disregard — for factory use only

WELDING ASSEMBLIES

A *Welding Assembly* consists of two or more metal parts, welded together at the plant in a fixture for accuracy. Parts for assemblies which cannot be welded to advantage in the field, are not listed except in occasional instances where the cost of a welding assembly would be excessive.

GENERAL INFORMATION

VEHICLE IDENTIFICATION . . .

This 13 digit number can be found stamped on the bottom line of the metal plate which is affixed to the upper left corner of the firewall under the hood. Beginning with SIX DIGIT Serial Number 100000 the "Alphabetical" GVW rating code is replaced by the actual "Numerical" weight designation.

GENERAL INFORMATION

1980 V.I.N.

This 13 digit number can be found stamped on the bottom line of the metal plate which is affixed to the upper left corner of the firewall under the hood.

J	O	E	1	8	N	N	0	0	0	0	0	1
MFG. CODE	MODEL YEAR	TRANS- MISSION	MODEL		GVW	ENGINE	SEQUENTIAL SERIAL NO.					

This number is decoded as follows:

FIRST DIGIT / Manufacturer

J - Jeep Corporation

SECOND DIGIT / Model Year

0 - 8000

THIRD DIGIT / Transmission - Drive

D - Automatic - LHD (Part Time 4WD) E - Automatic - LHD (Full Time 4WD)

H - Automatic - RHD (Part Time 4WD) J - Automatic - RHD (Full Time 4WD)

M - 4-Speed - LHD (Part Time 4WD) N - 4-Speed - RHD (Full Time 4WD)

FOURTH and FIFTH DIGIT / Model

15 - Wagoneer

(Custom)(4 Door) - 109" WB

16 - Cherokee (2 Door) - 109" WB

17 - Cherokee (2 Door)
(Wide Track) - 109" WB

18 - Cherokee (4 Door) - 109" WB

25 - Truck - 119" WB

45 - Truck - 131" WB

46 - Truck - 131" WB

83 - 'Jeep' - 84" WB

93 - 'Jeep' - 94" WB

SIXTH DIGIT / GVW Rating

A - 3750 - 83-84-93

E - 4150 - 83-84-93 HD

N - 6200 - 15-16-17-18-25-45

P - 6800 - 46

S - 7600 - 46

Y - 8400 - 46

SEVENTH DIGIT / Engine

A - SIX - 258 CID - Single Bbl.

B - FOUR - 151 CID - Two Bbl.

C - SIX - 258 CID - Two Bbl.

H - V8 - 304 CID - Two Bbl.

N - V8 - 360 CID - Two Bbl.

EIGHTH thru THIRTEENTH DIGIT / Serial Number

Sequential Serial Number - Toledo Built Vehicles - Begins With 000001

GENERAL INFORMATION

ENGINE IDENTIFICATION . . .

Engine identification locations are the darkened areas marked with arrows shown in the illustration below. The Four cylinder Engine Build Code is located as shown.

The Engine Build Plate has a code stamped on it and shows the type of engine and the date the engine was assembled.

The engine build date code used for the identification of engineering changes and service references is outlined as follows:

B - 151 FOUR Two Bbl. Carb.

The figure "0" is for 1980. For example, an Engine Build Code Number should read as follows:

January 2, 1980 - 001C02 (258 SIX Two Bbl. Carb.)

The 232 and 258 Engine Build Code is located as shown.

The Engine Code consists of six digits. The example 701-A-20 is interpreted as follows:

FIRST DIGIT / Year

7 - 1974, 8 - 1975, 9 - 1976, 1 - 1977, 2 - 1978, 3 - 1979, 0 - 1980

SECOND and THIRD DIGIT / Month

01 - January
02 - February

FOURTH DIGIT / Type

A - OHV SIX 258 - Single Bbl. Carb. - 8.0 to 1 Comp. Ratio
E - OHV SIX 232 - Single Bbl. Carb. - 8.0 to 1 Comp. Ratio

FIFTH and SIXTH DIGIT / Day

20 - 20th Day of the Month

GENERAL INFORMATION

To identify odd size engines, the following letter coding will be used. This letter code is stamped on the oil filter boss next to the block.

- B - .010 Oversize Cylinder Bores
- C - .010 Oversize Camshaft Bores
- M - .010 Undersize Main Bearings
- P - .010 Undersize Pins
- PM - .010 Undersize Pins and Main Bearings

The V8 Engine Build Code is stamped on the date code plate on the front of the right side rocker arm cover. The Engine Code consists of six digits. The example 709-N-20 is interpreted as follows:

FIRST DIGIT / Year

- 7 - 1974, 8 - 1975, 9 - 1976, 1 - 1977, 2 - 1978, 3 - 1979, 0 - 1980

SECOND and THIRD DIGIT / Month

- 09 - September
- 10 - October

FOURTH DIGIT / Type

- H - V8 304 - 8.40 to 1 Comp. Ratio - Two Bbl. Carb.
- N - V8 360 - 8.25 to 1 Comp. Ratio - Two Bbl. Carb.
- P - V8 360 - 8.25 to 1 Comp. Ratio - Four Bbl. Carb.
- Z - V8 401 - 8.35 to 1 Comp. Ratio - Four Bbl. Carb.
- T - V8 401 - 8.35 to 1 Comp. Ratio - Four Bbl. Carb. (Heavy Duty)

FIFTH and SIXTH DIGIT / Day

- 20 - 20th Day of the Month

To identify odd size engines, the following letter coding will be used.

- B - .010 Oversize Cylinder Bores
- C - .010 Oversize Camshaft Bores
- M - .010 Undersize Main Bearings
- P - .010 Undersize Pins
- PM - .010 Undersize Pins and Main Bearings

This letter can be found stamped to the upper half of the Engine Build Code plate.

GENERAL INFORMATION

PAINT OR TRIM . . .

Identification of paint and trim options on each vehicle is shown on the Vehicle Identification (VIN) plate attached to the engine firewall on the left hand side.

JEEP CORPORATION TOLEDO, OHIO USA	
Sales Order No.	SSR & O No.
• Paint Option No.	Trim Option No.
Vehicle Identification (VIN) Number	Jeep Model No.

*Disregard - for factory use only

This information should be used to determine paint color, trim number and included with the part number and description when ordering trim parts.

Paint or Trim Option 999 designates special paint or trim, therefore the vehicle serial number should be supplied. When ordering parts for vehicles not equipped with the option plate, samples of the upholstery or trimming should accompany orders for trim parts. Serial number, model of vehicle and body type should also be listed.

We assume no responsibility for errors in color specification due to incorrect trim code number supplied. We cannot accept cancellation of orders for trim parts after they are placed, and these parts cannot be returned for credit.

BULK PAINT is not available from the factory, however, *Aerosol* or *Brush Top Touchup Paint* is listed in the following chart. All colors shown are available from your local Ditzler and Dupont paint jobber by requesting the intermix formula shown in the intermix number chart.

SPECIAL ORDER or **FLEET PAINTS** are available as *Aerosol* or *Brush Top Touchup Paint* only if listed on the following Charts or in the Accessories Catalog.

To determine the paint manufacturer's intermix formula for a particular vehicle, proceed as follows:

1. Determine the paint option number from the Paint and Trim Option Plate on the vehicle.
2. Locate this number in the following chart to determine the name of the color on the vehicle except for Paint Option 999. Option 999 indicates special paint and when ordering paint for Option 999, please refer to the **SPECIAL SALES ORDER PLATE** affixed adjacent to the Vehicle Identification Plate on the left hand side of the firewall. Take the Special Sales Order Number and contact the National Parts Distribution Center for the correct paint under that sales order number.

GENERAL INFORMATION

TELEGRAPHIC CODES . . .

ORDERING PARTS -

There is a decided cost advantage in using code words for common phrases covering shipping instructions. Established code words are as follows:

TYEAL..... Ship by Truck C.O.D.
TYEAN..... Ship by Truck
YAM..... Ship by Parcel Post
YAMS..... Ship by Parcel Post Special Delivery
YAMX..... Ship by Parcel Post Special Delivery C.O.D.
YANK..... Ship by Parcel Post C.O.D.
YANKL..... Emergency order car tied up
YAP..... Ship by Air Parcel Post
YAPL..... Ship by Air Mail
YAPLS..... Ship by Air Parcel Post C.O.D.
YAPS..... Ship by Air Parcel Post Special Delivery
YAPSL..... Ship by Air Parcel Post Special Delivery C.O.D.
YAPSO..... Ship by Air Express
YAT..... Ship by Air Cargo
YATS..... Ship by Air Cargo C.O.D.
YEAN..... Ship by Express
YEARN..... Ship by Express C.O.D.
YOLD..... Ship by Freight
YOLK..... Ship by Freight C.O.D.
YOPSX..... Ship by Air Express C.O.D.
YORE..... Ship by Freight with carload

EXAMPLE: YAMS BOULEVARD CHICAGO ONE EACH 311 4850 312 9543 313 2723

Decoded reads:

SHIP BY PARCEL POST SPECIAL DELIVERY TO BOULEVARD CHICAGO ONE EACH
PART NUMBERS 311 4850 312 9543 313 2723

GENERAL INFORMATION

PARTS INQUIRIES -

There is a decided cost advantage in using code words for common phrases covering inquiries concerning parts orders, inventories and transfers. It is always good practice to use the following code words whenever possible.

COB..... Cancelled off back order. Re-entered on invoice -----
JAY..... Advise need for quantity of -----
JEP..... Unable to locate. Duplicating in order to avoid further delay via -----
YEA..... Refer your or our order number -----
YEB..... Our records indicate open account - order specifies C.O.D. - Advise
YEC..... Our records indicate C.O.D. - order specifies open account - Advise
YED..... Advise model, trim and serial number
YEE..... Advise - Right or Left, Front or Rear required
YEF..... Advise - Part number, group number and description do not agree
YEG..... Advise - Part number and price do not agree
YEH..... Cancelling. No record of part number, suggest recheck and reorder
(Form wire)
YEJ..... Cancelling. Fill from zone stock. (Form wire)
YEK..... Advise - Right hand drive part
YEM..... Cancelled - Refer Parts and Accessories Letter -----
YEMS..... Cancelled - Refer Service Letter -----
YEN..... Cancelled as requested
YENS..... Refer parts release and change notice ----- Dated -----
YEO..... Unable to cancel as requested - Shipped
YEP..... Incorrect material received - Check Stock
YEQ..... Cancelling. Purchase locally. Refer to Mr. A. J. Peterson's letter of
1-17-68 subject "Replacement Glass" for further details. (Form wire)
YER..... Verify stock depletion
YES..... Unable to locate in our attempt to cancel as requested. Suggest you
advise dealer accordingly
YET..... Unable to locate in our attempt to cancel. Try to intercept at zone
level in consolidated
YEU..... Believe dealer ordering incorrectly due to extremely limited production
of this first type panel. Recheck and reorder including car sequence
code number. Cancelling. (Form wire)
YEV..... Advise present inventory
YEW..... Advise by wire shipping information of order -----
YEX..... Advise date on which following invoices were received and screened
against back order file
YEE..... Return at once on Z-269 cheapest way prepaid (Quantity), (Part number).
Mail 1 and 2 copies Z-269 attention writer, reference this wire. Advise
YEYS..... Return at once on Z-269 cheapest way prepaid (Quantity), (Part number).
Mail 1 and 2 copies Z-269 attention writer, reference this wire. Advise.
Freight charges will be allowed
YEZ..... Ship at once via (Carrier), (Quantity), (Part number) to (Destination)
Advise
YOA..... Suggest use part ----- and fill from zone stock. Cancelling
(Form wire)

When making inquiries by wire regarding a dealer order, be sure to mention the dealers name, city and state as well as the order and invoice numbers if available.

EXAMPLE: YEW BOULEVARD CHICAGO 195670

Decoded reads:
