(b) Open the hood and find "Vehicle Emission Control Information Label" (V.E.C.I.L.). Record the following information for use in the second column on the chart.

- ..Engine CID
- ..Engine Family
- ..Evaporative Family

(c) Determine from the V.E.C.I.L. the certification area (i.e., 49S..49 State, Alt..High Altitude, Cal.. California). Use this information to locate the correct box in the third column on the chart.

(d) Determine what transmission the vehicle has and use this information to select the correct box in the fourth column of the chart.

(e) The above information aligns across the chart. The remainder of the information should be used to check the vehicle for correct component application.
