ILLUSTRATION SUPPLEMENT - SPECIAL INFORMATION

GLASS - CHANNELS Refer to Group 23 Illustrations.

SPECIAL INFORMATION

The Engine Build Code Number, the Vehicle Identification Number and the information provided on the Trim Plate are often necessary when determining the proper replacement parts for your vehicle. For their location refer to the General Information Section found at the front of this catalog.

NOTES

- 25-1 When replacing Ventilator Glass, the upper Pivot Kits (Female End) must be used to make a complete installation. See Group 23.118 for part numbers.
- 25-2 Used when Tailgate Glass has a Frame around the Glass.
- 25-3 Used when Tailgate Glass does not have a Frame around the Glass.
- 25-4 Upper Pivot is attached to Vent Window through a hole in the Glass.
- 25-5 There is a Ring Terminal on the Left Hand Wire of the Glass Assembly and a Blade Type Terminal on the Right Hand Side Wire.
- 25-6 Both, Left and Right Hand Wires of Heated Glass Assembly have Blade Type Terminals.
- 25-7 The revised Heated Tailgate Glass Assembly includes Cable Clips on both, the Feed and the Ground Wires. Remove these Clips when installing the above Glass Assembly to a Tailgate Regulator that does not have the corresponding 1/4" Holes in the Regulator Arms (approximately 5" from the end) to receive these 2 Clips.
